

## Biome Riddles

Read each riddle. Use the clues to figure out which biome is talking. Write its name on the line. Use the words in the box.

**WORD BANK**

rainforest   desert   tundra   grassland   evergreen forest   ocean

1. I am hot all year, and it rains here almost every day. My tall trees are so crowded that little sunlight reaches the ground. Monkeys and parrots live in my treetops. What am I?  

---
2. Rain hardly ever falls on me. Days can be very hot and nights can be cold. My plants store water, and many of my animals come out only at night. What am I?  

---
3. I am cold and dry, and the ground under me stays frozen most of the year. No trees grow here, only low mosses and small plants. Caribou walk across me. What am I?  

---
4. I get enough rain for grass but not enough for many trees. Wide open spaces stretch as far as you can see. Bison and prairie dogs make their homes here. What am I?  

---
5. My winters are long and snowy. My trees have needles instead of flat leaves, and they stay green all year. Moose and bears live among my trees. What am I?  

---
6. I am salty and I cover most of the Earth. Whales, sharks, and coral live in me. What am I?  

---
7. Write your own biome riddle. Give at least one clue about temperature and one about rain.
